

TABLE CHAT BOX FIXES

Scenario 1

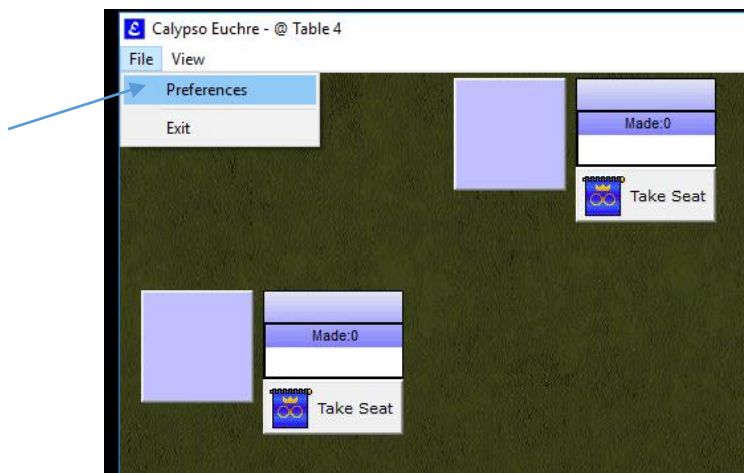

If you have NO CHAT BOX at TABLE

Follow these few easy steps

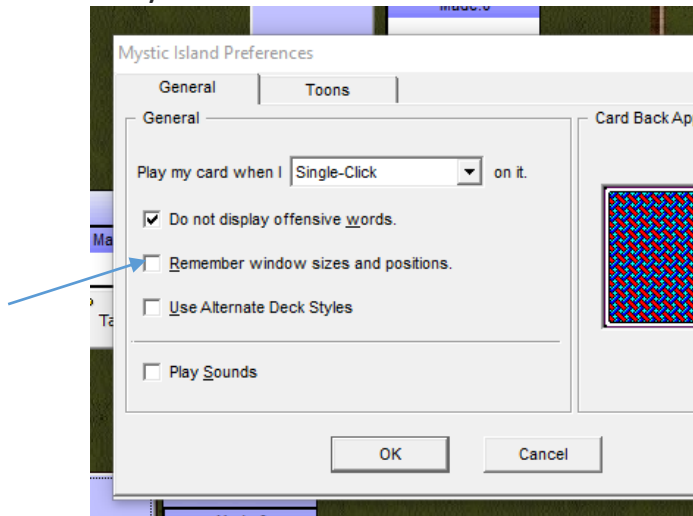

1. Go to table and Choose the File tab

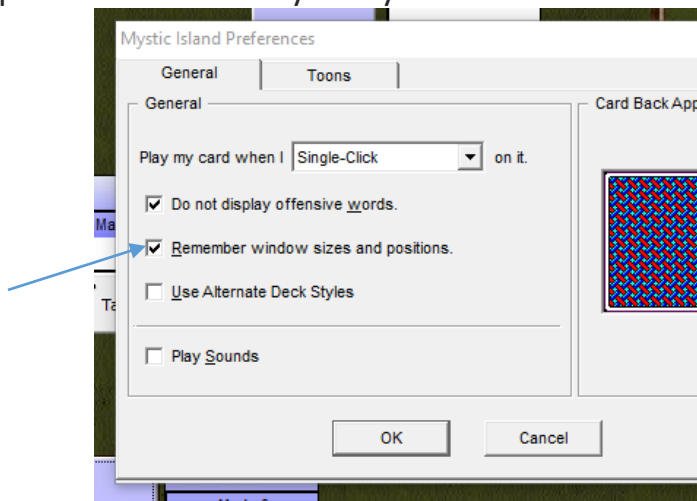

2. Select Preferences

3. Under General uncheck remember window sizes and positions click okay and leave table

4. Return to table Click File ~ Preferences~ and then move your boxes to how you want them, then check the box remember window size and positions click okay and you are all SET then

Scenario 2

If you have a chat box and it covers your whole screen

There are two possible reasons for this

The box is just big - just click the corner of it hold down and drag it to the size you want

The box is maximized – the square at the top right and then use the method above to resize to your wishes
